Report on the Financial Statements

We have audited the accompanying financial statements of Truth For Life (the "Organization," a non-profit corporation), which comprise the statements of financial position as of December 31, 2020 and 2019, and the related statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Truth For Life

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Truth For Life as of December 31, 2020 and 2019, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Notes to the Financial Statements

December 31, 2020 and 2019

Note 1: Summary of Significant Accounting Policies

Nature of Organization

Truth For Life (the “Organization”), incorporated in December 1994, under the laws of the State of Ohio, is a not-for-profit religious corporation. The Organization is dedicated to proclaiming the Gospel through radio and digital programs and related study materials. The programs consist of the sermons of Pastor Alistair Begg, Senior Pastor at Parkside Church in Ohio.

Adopted Accounting Pronouncement

In August 2018, the FASB issued ASU 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*. The objective of this ASU is to improve the effectiveness of disclosures in the notes to the financial statements. On January 1, 2020, the Organization adopted this ASU. There was no impact on beginning net assets as a result of this implementation.

COVID-19

In March 2020, the outbreak of COVID-19 caused by a novel strain of the coronavirus was recognized as a pandemic by the World Health Organization. The pandemic outbreak has caused an economic downturn on a global scale. The Organization continues to monitor the impact of the pandemic as it unfolds. As of December 31, 2020, the Organization did not experience a material adverse impact due to COVID-19, and cannot, at this time, predict the impact the pandemic will have on its future financial position, cash flows or results of operations.

Reclassifications

Certain accounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements.

Basis of Presentation

The Organization follows authoritative guidance issued by the Financial Accounting Standards Board (FASB) which established the FASB Accounting Standards Codification (ASC) as the single source of authoritative accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared on the accrual basis of accounting. Net assets and revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Organization and changes therein are classified and reported as follows:

Truth For Life

Notes to the Financial Statements

December 31, 2020 and 2019

Note 1: Summary of Significant Accounting Policies (continued)

Basis of Presentation (continued)

Net Assets Without Donor Restrictions – Net assets that are not subject to donor-imposed stipulations, whether due to time or purpose. These include net assets designated by the Board of Directors to be set aside for specific purposes over which the Board retains control and may, at its discretion, subsequently be used for other purposes.

Net Assets With Donor Restrictions – Net assets whose use has been limited to a specific time period or purpose. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets are reclassified to net assets without donor restrictions and reported in the statements of activities as net assets released from restrictions.

Revenue Recognition

Revenue is recognized upon transfer of control of products. Control transfers when products are shipped (point in time). Products include books, recordings, and other materials. The products are available to the general public on the Organization's website, and revenue is recognized as products are shipped to these individuals. As a practical expedient, the Organization may apply revenue recognition guidance to a portfolio of contracts with similar characteristics if the Organization reasonably expects the effects on the financial statements of applying this guidance to the portfolio would not differ materially from applying this guidance to the individual contracts (or performance obligations) within that portfolio. The Organization is taking the practical expedient approach, as all contracts with the general public for the purchase of items for sale are similar.

Truthpartner memberships are primarily contributions; however they include a right for Truthpartners to elect to receive premiums throughout the year. Not every member elects to receive such premiums. While this right to elect to receive premiums represents an exchange transaction, management has determined that the effect of the Organization recognizing Truthpartner revenue at the time of contribution is not materially different than if the Organization were to identify and recognize the exchange portion at the time a Truthpartner exercises their right to receive a premium, or such right expires. The Organization is taking the practical expedient approach, as memberships are very similar for each individual membership purchased.

There were no material contract assets or liabilities at December 31, 2020, 2019, and 2018.

The Organization recognizes unconditional promises to give as revenue in the period in which the promise is received. If there are no donor-imposed restrictions on the use of funds, then those revenues are classified as without donor restrictions. If a donor-imposed restriction exists, then it must be determined if this restriction is with regard to time or purpose, or in perpetuity and classified in the financial statements as net assets with donor restrictions. A donor-imposed restriction is present when the contributor of funds designates a specific purpose or time period in which the funds may be used. At the time when this donor-imposed restriction has been satisfied, net assets with donor restrictions are reclassified as net assets without donor restrictions, and would be disclosed in the statement of activities.

Truth For Life

Notes to the Financial Statements

December 31, 2020 and 2019

Note 1: Summary of Significant Accounting Policies (continued)

Revenue Recognition (continued)

If donor-imposed conditions exist, revenue is recognized when the conditions are substantially met. A donor-imposed condition exists when (a) one or more barriers must be overcome before a recipient is entitled to the assets transferred or promised, and (b) a right of return to the contributor for assets transferred or a right of release of the promisor from its obligation to transfer assets exists. When the conditions are substantially met, revenue is recognized as support without donor restrictions or revenue with donor restrictions if donor-imposed stipulations are present. No funding with donor-imposed conditions was received during the years ended December 31, 2020 and 2019.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Organization considers deposits in financial institutions or time deposits, excluding brokerage cash and money market funds, with an original maturity date of 90 days or less to be cash and cash equivalents. The balances, at times, may exceed federally insured limits.

Accounts Receivable

Accounts receivable are uncollateralized obligations due under predetermined payment schedules.

Accounts receivable are stated at the amount billed. Customer account balances with invoices dated over 90 days old are considered delinquent.

The carrying amount of accounts receivable may be reduced by an allowance that reflects management's best estimate of the amounts that will not be collected. Management individually reviews all accounts receivable balances that exceed 90 days from invoice date and based on an assessment of current creditworthiness, estimates the portion, if any, of the balance that will not be collected. At December 31, 2020 and 2019, management estimated that no reserve was required.

Truth For Life

Notes to the Financial Statements

December 31, 2020 and 2019

Note 1: Summary of Significant Accounting Policies (continued)

Inventory

Inventory is carried at the lower of cost or net realizable value. Cost is determined using the average cost method. Inventory consists principally of recorded versions of Alistair Begg's Bible teachings, books, and other materials for distribution to listeners of the radio broadcasts and website visitors. Management periodically reviews its inventory for excess and obsolescence. At December 31, 2020 and 2019, management estimated that a reserve of \$43,383 and \$50,000 was required, respectively.

Investments

Investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statements of financial position. Interest, dividends, realized and unrealized gains and losses, if any, and investment fees are included in investment income, net in the statements of activities. Cash flows from donated securities which are sold immediately are considered operating cash flows in the accompanying statements of cash flows.

Investment income, net consisted of the following for the years ended December 31:

	<u>2020</u>	<u>2019</u>
Interest and dividends	\$ 51,996	\$ 104,143
Net realized and unrealized (loss) gain	<u>(17,535)</u>	<u>10,689</u>
	\$ <u><u>34,461</u></u>	\$ <u><u>114,832</u></u>

Property and Equipment

The Organization's purchased equipment is carried at cost. Donated assets to be used in the ministry are capitalized at their fair market value on the date of the gift. Maintenance and repairs are charged to expense as incurred, whereas the cost of property and equipment additions and improvements are capitalized. The cost of assets sold, retired or abandoned, and the related amounts of accumulated depreciation are eliminated from the accounts in the year of disposition and any resultant gain or loss is recognized in the statement of activities.

Depreciation is provided on the straight-line basis over the estimated useful lives of the assets as follows:

Land improvements	20 years
Building and improvements	25 – 40 years
Furniture and equipment	3 – 15 years

Note 1: Summary of Significant Accounting Policies (continued)

Income Taxes

The Organization is tax-exempt, under Section 501(c)(3) of the Internal Revenue Code of 1986. No provision for federal or state income taxes has been reported in its financial statements.

The Organization accounts for income taxes in accordance with the “Income Taxes” topic of the FASB ASC. Uncertain income tax positions are evaluated at least annually by management. As of December 31, 2020 and 2019, the Organization has identified no uncertain income tax positions and has incurred no amounts for income tax penalties and interest for the years then ended.

The Organization files its Federal Form 990 in the U.S. federal jurisdiction and a state registration in the office of the state’s attorney general for the State of Ohio.

Contributed Services

The Organization recognizes contributions of services received when those services (1) create or enhance nonfinancial assets or (2) require specialized skills that are provided by individuals possessing those skills, and would typically need to be purchased if not provided by the donation. Donated contributions of services were recognized in the amount of \$5,488 and \$19,500 for the years ended December 31, 2020 and 2019, respectively.

Many volunteers have contributed significant amounts of their time to the Organization. The volunteer assistance is used primarily in assembling materials for sale and for processing orders. No amounts have been reflected in the financial statements for these contributed services. The value of these donated services is not recorded because the services do not meet the criteria for recording as outlined above.

Recent Accounting Pronouncements

In February 2016, the FASB issued ASU 2016-02, *Leases* (ASU 2016-02). The new standard establishes a right-of-use model that requires a lessee to record a right-of-use asset and a lease liability on the statement of financial position for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the statements of activities and functional expenses. FASB issued ASU 2020-05 that deferred the effective date for the Organization until annual periods beginning after December 15, 2021.

In September 2020, the FASB issued ASU 2020-07, *Not-for-Profit Entities (Topic 958): Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets*, which requires the presentation of contributed nonfinancial assets as a separate line item in the statement of activities. This ASU is effective for fiscal years beginning after June 15, 2021, and interim periods within fiscal years beginning after June 15, 2022.

Management is currently evaluating the impact of these ASUs on its financial statements.

Subsequent Events

In preparing these financial statements, the Organization has evaluated events and transactions for potential recognition or disclosure through March 30, 2021, the date the financial statements were available to be issued.

Note 2: Fair Value Measurements

In accordance with the “Fair Value Measurements” topic of the FASB ASC, the Organization uses a three-level fair value hierarchy that categorizes assets and liabilities measured at fair value based on the observability of the inputs utilized in the valuation. This hierarchy prioritizes the inputs into three broad levels as follows: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly; and Level 3 inputs are unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own valuation assumptions. These inputs reflect management’s judgment about the assumptions that a market participant would use in pricing the asset, and are based on the best available information which has been internally developed.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Money market funds: Valued at amortized cost, which approximates fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. The money market mutual fund held by the Organization is an open-end fund that is registered with the Securities and Exchange Commission. This fund is required to publish its daily net asset value and to transact at that price. The money market mutual fund held by the Organization is deemed to be actively traded.

Certificates of deposit: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit rating.
